GENERAL STATEMENT

History of the University The Jesuits came to New Orleans in 1847 with the purpose of establishing a college of Liberal Arts and Sciences. On February 1, 1849, the College of the Immaculate Conception, founded by them, began its remarkable career at the corner of Baronne and Common Streets. To it was attached a college preparatory academy. In 1904 the Jesuits opened an academy and a college on St. Charles Avenue opposite Audubon Park. These two associated institutions were known as Loyola College. In 1911 the College of the Immaculate Conception was united with Loyola College on the present Loyola campus. The Academy of the Immaculate Conception became the Jesuit High School. With it was united the preparatory school of Loyola College.

In response to a general demand from the public and an urgent request from His Excellency, Most Reverend James J. Blenk, then Archbishop of New Orleans, Loyola College was expanded into Loyola University in the fall of 1911. The University was authorized by the General Assembly of Louisiana in 1912 to grant all university degrees.

Loyola University of the South is but one of the many educational institutions conducted by the Jesuit Fathers in the United States and in many other countries. In the United States alone, the Jesuits conduct 62 educational institutions with a total enrollment of more than 68,000 students.

Jesuit System of Education Jesuit universities and colleges are unique in their characteristic educational methods. There is a system of education based on the best traditions, the experience, and the research of the better educators in many countries through many centuries. The fundamentals of this system are embodied in a collection of pedagogical principles and practices known as the *Ratio Studiorum*.

This system is distinctive in its aim and objective as well as in its method of approach. Thoroughly convinced that religion is not an appendage to education, but a very vital part of the training of the student and of the subject-matter of his courses, the Jesuits always have held as the goal of education the blending of the supernatural with

the natural. Their purpose has been to produce a perfect man, seeking to develop his moral character as well as his mind, his soul as well as his body; believing that a true, cultured citizen of any state must be loyal to his God, his church, and his country.

As college life is the field in which youth with energy and initiative seeks to prepare itself for life's struggles, literature and science are studied in the light of an all-embracing philosophy which unifies knowledge and motivates action. The system is opposed to the pedagogical errors of undigested cramming, uncorrelated electives, over-specialization. The formation of habits of study, reading, and research, of quick thinking and exact expression is characteristic of their aim. Personal contact with the professors, whose example, taste, and experience are often a more potent factor of education than the professional lecture, is a vital part of the system.

Jesuit education prepares its students for eternity as well as for time; for life as well as for vocation.

The Need of Today, the professions, the arts, the sciences, as well as business, look for a college education in their members. The mere specialist, the master of one skill or subject, does not make for progressive civilization and culture. Man as a social being must have a broad vision and wide experience. He must be familiar with many fields of thought and interest.

This rounded culture should be the fruit of college experience. Through selected courses, the investigating mind is led into the various fields of systematized knowledge. Correlation of these courses makes for unity and thoroughness, for mastery in one's chosen field without ignorance of the others, for a well-stored mind that has been trained to think for itself and has grown capable of working out problems that present themselves in school and in later life.

Besides, one learns poise and refined bearing, acquires prudence and good judgment, from daily contact with fellow students of talent and ambition. By this association with one's fellow men of the best type, defects are overcome, habitual attitudes are adopted and perfected, and character is molded.

Organization The College of Arts and Sciences at present conducts the following departments: Biology, Chemistry, Classical Languages, Education and Physical Education, English and Speech, Journalism, History and Political Science, Medical Technology, Modern Foreign Languages, Philosophy, Physics and Mathematics, Sociology, and Theology. In these departments the College offers courses leading to the degrees of Bachelor of Arts, Bachelor of Philosophy, and Bachelor of Science. It also conducts pre-professional courses that qualify students for entrance into the professional schools of Dentistry, Law, and Medicine.

Classical Studies It is one of the regrettable results of the present unrest in the educational world, where the forces arrayed to give vocational training, mechanical development, wage-earning skill, and physical culture are clashing with the traditional classical methods, that the cultural and academic subjects have lost much of their former prestige. No other curriculum has been found to provide the comprehensive training of mind, heart, and will as surely and as efficiently as did the classical studies when they flourished in a golden age as the cause and the fruit of erudition, scholarship, and refinement.

Modern Sciences It is a grievous error to believe that the lovers of literature and art must be enemies of science and invention. The history of science shows plainly how the great scientific discoveries came out of the institutions hallowed for their classical learning. Until recent times all scientific information and the disputes and inventions of scientists found their way to the public through the Latin tongue.

Ample facilities are offered in the College of Arts and Sciences to the lover of natural science. Large, fully equipped laboratories for general and specialized chemistry, biology, medical technology, and physics are provided. Consecutive courses covering four years of intensive study lead to the degree of Bachelor of Sciences.

Commerce and Finance Since 1926 the four-year program, leading to the degree of Bachelor of Science (in Economics), has been offered in the Department of Commerce of the College of Arts and Sciences. The College of Business Administration is a natural outgrowth of this department. In 1947 the Board of Directors of the University authorized the

establishment of this separate jurisdiction to afford training in business subjects, leading to the degree of Bachelor of Business Administration. Information concerning courses offered in the College of Business Administration can be obtained by requesting a bulletin of the College of Business Administration.

R.O.T.C. Unit The War Department maintains a Senior Division of the R.O.T.C. at Loyola University of the South, which is classified as a CC (Civilian College) institution. The mission of the Reserve Officers Training Corps is to produce junior officers who have the qualities and attributes essential to their progressive and continued development as officers in the Army of the United States. The Military Department of Loyola University of the South places special emphasis upon "Leadership" to assist Loyola men in meeting any situation in life with success and honor. **Enrollment in the R.O.T.C. Unit** is obligatory for all male freshmen in the College of Arts and Sciences. Information about the Loyola R. O. T. C. Unit is contained on pages 52-57 of this Bulletin.

Bequests Because of its rapid growth the University must and **Gifts** look to its friends and benefactors, and to all those whose bounty is being devoted to the cause of higher education, for the generous contributions which will enable the University to continue its building program. The University hopes for a continuance of financial as well as moral support from those who believe in placing college education within the reach of every deserving student, and who consider that education the safest and best which postulates as the foundation of its intellectual development the formation of character through moral and religious education.

The University cherishes the memory of all its benefactors, great and small. These share in the good works and prayers of the Jesuits of Loyola. Their generous assistance to the University, according to their means, will be remembered long after they are gone.

Among the distinguished benefactors of the University should be mentioned: Miss Sarah Babb, Mr. and Mrs. E. J. Bobet, Mrs. Paul Bordenave, Hon. Joseph A. Breau, Mr. Joseph P. Buckley, Mr. and Mrs. Wm. P. Burke, Miss Leonora Del Bondio, Mr. Lawrence Fabacher, Mr. Edward Fassmann, Miss Mary Ferguson, Mr. Bernard Ghio, K. of

St. G., Mr. G. R. Katz, Miss Mary Agnes McCabe, Miss Katherine McDermott, Mr. Edgar Murray, Mrs. J. B. Palmer, Mrs. Emma P. Quintero, Mrs. Louise Jouet Rabouin, Mrs. Olive Stallings, Mrs. George Swarbrick, Mrs. S. O. Thomas, Mr. and Mrs. W. J. Vincent, Miss Lilly Whitaker.

Those who are desirous of helping Loyola University in its sublime mission of higher education by erecting buildings as family memorials, or by endowing departments or lecture-chairs in any of its schools or colleges, are requested to make their donations, legacies and bequests in the proper legal form, as shown on page 90 of this Bulletin. One may specify the purpose for which the gift is to be used. This intention will be observed scrupulously. It is well to state whether the sum is for building and equipment or for endowment, as the latter must be invested and only the accruing interest may be used.

Scholarships Through the generosity of friends, the College is able to offer a limited number of scholarships each year to bright and ambitious young men of fine moral character. The College is very happy to be able to assist these young men in getting a higher education which will prepare them for outstanding citizenship. The President and faculty of the College are deeply grateful to their friends who with noble Christian spirit have extended a helping hand to the less fortunate. It is earnestly hoped that others will help to increase our scholarship fund for the benefit of deserving young men.

A Perpetual Scholarship is founded when an endowment of \$10,000.00 is set aside for this purpose.

A Course Scholarship represents an amount which will cover the tuition and general fees of one student during his four years of college. The sum of \$1400.00 may be deposited or \$350.00 may be paid annually.

An Annual Scholarship is provided by the yearly donation of \$350.00.

Most of the scholarships listed below cover the tuition fee only. The holder of the scholarship must pay the other fees at the beginning of the year, and he must at all times set an example of good conduct and serious application. The honor will be forfeited by any holder of a scholarship whose grades

during a semester are unsatisfactory. Scholarships granted in the College of Arts and Sciences cannot be transferred to any other school or college of the University.

Scholarships are awarded each year by the Committee on Scholarships which meets each year about the middle of July. Application blanks may be obtained from the Assistant Dean and must be returned to him before the first of July.

The following are scholarships which have been placed at the disposal of the University:

The W. P. Burke Scholarships (three).

The Rev. Francis X. Twellmeyer, S.J., Scholarship.

The Rev. A. E. Otis, S.J., Scholarship.

The Rev. Albert J. Biever, S.J., Scholarship.

The Louisiana State Councils of K. C. Scholarships (seven).

The St. Ignatius Scholarship, founded by Miss E. S. Fitch.

The St. Ignatius of Loyola Scholarship.

The Men's Sodality of Jesuits' Church Scholarship.

The Francis Xavier Wegmann Scholarship.

The Virginia Bobet Scholarship.

The Louise Thomas Scholarship.

The Albert J. B. Lapeyre Memorial Scholarship.

The Ladies' Marquette Auxiliary Scholarships (two).

The Mrs. Josephine Burke Palmer Scholarships (two).

The Hon. Joseph A. Breau Scholarships (ten).

The Joseph A. Lipari Scholarships (three).

The Louise Jouet Rabouin Scholarships (two).

The G. R. Katz Scholarships (two).

Sodality of the Blessed Virgin Mary For the purpose of fostering religious faith and fervor, and to encourage the students to spiritual and scholastic leadership, the University Sodality offers many opportunities for personal development as well as training and practice in social work and religious activity. Weekly meetings are held for the discussion of phases of Catholic life.

Student Council The Student Council consists of twenty-seven members, representing the College of Arts and Sciences, the Schools of Law and Dentistry, and the Colleges of Pharmacy, Music, and Business Administration. These students are selected by the student body with the approval of the faculty. The duty of the Council is to unify student thought and action.

It conducts general meetings and elections, sponsors and manages interclass contests, contributes to the student publications, and leads and directs student activities.

N.F.C.C.S. Under the leadership of the Student Council, student extra-curricular activities at Loyola are affiliated with the National Federation of Catholic College Students. A regional division of the National Federation has been established in New Orleans for the purpose of unifying and strengthening the major extra-curricular projects of the Catholic Colleges of the city.

The Philosophy Club The function of the Philosophy Club is to promote greater active interest in scholastic philosophy by more intensive study, lectures, and public disputations.

Language Clubs To foster a deeper appreciation of the finer literature of modern foreign languages, French, German and Spanish clubs are conducted for those more advanced students who qualify for membership.

Pan-American Club The purposes of the Pan-American Club are to stimulate friendly cooperation among the Spanish and English speaking students, to seek a better understanding of Latin America, to aid Latin American students who are entering the University, to minimize their difficulties with the English Language and to spread the knowledge of the Spanish Language among the North American Students.

Scientific Societies The Biology, Chemistry, Physics, and Mathematics Societies meet regularly for the discussion of special problems and for special lectures on scientific subjects. The students of the College of Arts and Sciences are eligible for membership subject to the respective special requirements for admission to each society.

Radio Club The Amateur Radio Club was organized in September of 1945. Its primary purpose is to foster interest in Amateur Radio. Movies, lectures, and actual contact with amateur equipment serve to prepare members who are prospective licensees. Much long distance work has been carried on through W5LJY operating on 10 meters. A genuine interest in Amateur Radio is the only prerequisite to membership.

Debating Clubs The students are encouraged to participate in exercises of public speaking. To further this activity two debating clubs conduct programs and engage in intercollegiate debates with other universities in various sections of the country. These two clubs are known respectively as The Edward Douglass White Society and The Chief Justice Charles A. O'Niell Society.

Dramatic Clubs The purpose of the dramatic clubs is to develop and give an outlet to the dramatic talent of the students. With this object in view, several plays are given during the year.

Pegasus Poetry Society Pegasus has as its purpose to further interest in poetry, to sponsor symposia and to study poetical works in general.

The Academy of Fine Arts The Academy aims to give its members more contact with art and to offer students the opportunity to acquire an esthetic appreciation of the great masters in painting, sculpture, architecture, and music.

Glee Club Students of the College of Arts and Sciences are eligible for membership in the Loyola Glee Club. The Glee Club takes an active part in the public entertainments and assemblies of the University.

University Band Membership in the University Band is open to the students of the College of Arts and Sciences if they have the required ability and training. All who become members are required to be regular and prompt in attendance at the appointed rehearsals and at all performances.

Student Publications The students of the University, under faculty supervision, issue three publications: *The Maroon*, a weekly, *the Wolf*, an annual, and the *Students' Handbook*. The editors are appointed by the committee on Student Publications, and the editorial staffs are appointed by the editors. The business management is in the hands of the students.

Honorary Scholastic Fraternities In order to give recognition and encouragement to high standards of scholarship among the students, several honorary scholastic fraternities have been established on the campus.

Delta Epsilon Sigma D. E. S. is a national scholastic honor society for students and graduates of Catholic colleges and universities. Members are chosen from the College of Arts and Sciences only, on a basis of good character, liberal culture, and high scholarship. Candidates must have at least a "B" rating throughout their four years.

Alpha Sigma Nu A. S. N. is a national scholastic honor society for male students of Jesuit colleges and universities.

The two highest ranking students in each school or college of the University are nominated for membership each year, and the final selection of members is made from their number.

Service Fraternities In order to provide wholesome outlets for non-academic campus activity three service organizations have been formed.

Blue Key This is a national honorary service fraternity whose members are chosen by the active student chapter from male students who have distinguished themselves in leadership, activity, scholarship and service rendered the University.

Alpha Pi Omicron and Lambda Sigma Lambda These two service organizations are open to male and female students respectively who have proved their ability and willingness to lend varied assistance to the faculty and students of the University. These organizations were founded to foster the development of leadership, activity, loyalty and generous service to the University. Any student of the University is eligible to join one of these organizations.

Loyola Forum The Loyola Forum is an educational, entertaining program designed for the students' benefit and enjoyment. The Forum spreads Catholic truth and culture—the truth and culture inculcated by the University within its walls—to the outside world by bringing to New Orleans famous Catholic personages, prominent in every field—business, religious, scientific, artistic, governmental—to lecture on current issues and personal experiences.

Press Relations Committee The aim of the Committee is to present Catholicism from falling victims to what Pope Pius XII calls "the flood of black paganism," that is being poured forth constantly by today's newspapers, magazines, books, movies, etc. The Committee analyzes

misrepresentations of the Church publicized by the modern opinion-forming agencies, and presents the results of its research in bi-monthly bulletins.

ENTRANCE PROCEDURE

Application For Admission Applicants for admission to the Freshman class must meet the requirements stated below under Methods of Admission. The specific units of credit that are required and other units that may be presented for admission to the Freshman class are listed under Admission Requirements.

Application for admission accompanied by proper credentials must be filed with the Registrar before July 1 for September admission, before January 1 for February admission. Applications received after these dates will be considered only if student quotas have not been filled.

Applicants for admission as Freshmen, or with advanced standing, must submit official records from all schools and colleges attended. These credentials are to be sent directly by the proper officer of the school or college in which they were earned and not through the student. Credentials which are submitted for admission become the property of the University, even in the case of applicants to whom admission is denied, and are kept permanently on file. Blank forms for transcripts of records may be had on application to the Registrar.

It is recommended that applicants have their credentials sent to the Registrar immediately after graduation from high school. This will enable the Committee on Admissions to pass on their eligibility and to inform them of any deficiencies that may be made up in the summer session.

The University reserves the right to refuse admission to applicants whose previous work is of such a grade as to create a doubt regarding their ability to pursue successfully their scholastic work in the University.

All students are expected to be matriculated before the beginning of the session's classes, thus allowing them ample time to be assigned to classes and to be provided with laboratory equipment.

Students should be present on the opening day of classes. They will not be admitted under any circumstances after the first ten class days. Freshmen must be present on the opening day of Freshman Orientation Week.

The University is not co-educational in all departments. Admission of girls to the College of Arts and Sciences full-time courses is restricted to the courses in Medical Technology and Teacher Training, to which courses a limited number of girls will be admitted each year. Girls will not be admitted as candidates for the other degree programs in the College of Arts and Sciences. This restriction does not apply to Part-time Courses.

Methods of Admission *I. As a Regular Student*—Admission as a *matriculated student to the College of Arts and Sciences may be obtained by one of the following methods: (1) by certificate or diploma of graduation from an approved high school; (2) by examination; (3) by transfer from another institution of higher education.

Admission by Certificate—Admission without examination is granted to students who have graduated with a minimum of fifteen acceptable units and in the upper two-thirds of their class from any high school accredited by a recognized standardizing agency, or by the State Board of Education, or by the State University of the State in which the high school is situated. The application for admission must be accompanied by a certificate from the high school showing the quantity and quality of work accomplished by the applicant and giving information about his personality, character, and health.

Admission by Examination—An applicant who is not entitled to enter by certificate, as stated above, must take entrance examinations in the following subjects: English, history, foreign language, mathematics, and science. These examinations are held in July and September. Applications for these examinations should be made to the Registrar of the University at least two weeks in advance.

Admission to Advanced Standing—Advanced standing will be given, at the discretion of the Committee on Admission and Classification, to an applicant who has fulfilled the high

*A matriculated student is one who has fulfilled all entrance requirements, paid all fees that are due, and is pursuing regular courses leading to a degree.

school requirements for admission and in addition presents a transcript of college credits certified by the proper official of the college or university attended showing all the scholastic work done in that institution and in all other institutions of collegiate rank previously attended, and giving the student honorable dismissal. Credits presented from a non-accredited institution will be accepted rarely, at the discretion of the Committee on Admission and Classification, and only if the student has made satisfactory grades in his first semester's work at Loyola University College of Arts and Sciences. *No transfer student will be accepted unless he has attained a "C" average for all hours attempted during the preceding year at the college from which he transfers, and no faculty action has been taken against him.* Credits presented for work done by correspondence will not be accepted.

II. As a Special Student—A limited number of mature persons who are not eligible for admission into the University by certificate may be admitted as special students under the following conditions: (1) they must be at least twenty-one years of age; (2) they must not have been in attendance in high school during the previous year; (3) they are to present all available certified credits of previous school work, together with formal application for admission as special students, stating the subject courses desired and the reasons for desiring those courses. When no certified credits can be presented, the applicant must furnish a detailed statement of all previous educational work and practical experience.

By virtue of his classification, a special student is not eligible for any degree. He may ultimately become a candidate for a degree by completing by entrance examinations the admission requirements of the department in which he wishes to register.

Registration as a special student is for one semester only. Registration for a following semester will be refused if the student has not shown satisfactory earnestness and definiteness of purpose, or if his work has not been satisfactory in the preceding semester. No one may register in the University as a special student for more than two years.

III. As an Out-of-Course Student—A limited number of earnest students of mature years who, though fully qualified for admission to the College as regular students, do not wish

to register as candidates for a degree, but merely want to pursue particular studies for cultural purposes, may be permitted to register as out-of-course students, provided they have obtained the recommendation of the Chairman of the Department in which they wish to register, and the written permission of the Dean. Such recommendation and permission will not be given to applicants who are not evidently qualified to pursue profitably the desired courses.

An out-of-course student may not establish any credits toward the fulfillment of requirements for a degree unless he changes his academic status to that of a regular student. Out-of-course students are not permitted to continue their studies in the College beyond four semesters. At the beginning of each semester they must make written application to the Dean for the privilege of registering for that semester. This privilege will be granted only to those applicants who have shown, during the preceding semester, a satisfactory definiteness and earnestness of purpose.

Admission Requirements For admission to the College of Arts and Sciences at least fifteen acceptable high school units are required. In general, these units should show several sequences of subject-matter adapted to the course to which admission is sought. *The student seeking admission must be in the upper two-thirds of his class.*

1. All students must present the following units.

	Units
English	4
History, Civics	2
Algebra	1
Plane Geometry	1
*Latin or Modern Foreign Language.....	2
Science	1

2. In general, only three units will be accepted from the following group.

	Units		Units
Bookkeeping	1	Economics	$\frac{1}{2}$ - 1
Commercial Law	$\frac{1}{2}$ - 1	Music	1
Commercial Geography	1	Shop Work	1
Drawing—Mechanical	1	Stenography	$\frac{1}{2}$
Drawing—Freehand	1	Typewriting	$\frac{1}{2}$

3. A student may not register for a subject course which presupposes specific high school preparation, unless he has

completed such preparation. Any deficiency in such preparation will make it necessary for him to take those basic courses which the University judges advisable. Credit for that work may or may not be allowed, according to the circumstances of the case.

Student Fees Fees are paid in four installments in each scholastic year—the first on the date of registration, the second on November 1st, the third on February 1st and the fourth on April 1st. *Any other arrangement for payment must be made before the completion of registration with the Treasurer of the University.*

Auditors are charged on the same basis as part-time students, \$10.00 per semester hour scheduled.

The following are the fees in the College of Arts and Sciences:

Tuition and Basic Fees.....	\$350.00	Per year
Matriculation Fee	5.00	
Late Registration	5.00	
Graduation	25.00	
Cap and Gown Deposit	30.00	
Conditional Examination	2.00	
Late Examination	2.00	
Transcript (after first)	1.00	
Locker	2.00	
R.O.T.C. Deposit	20.00	

Additional fees are charged for certain courses. These fees must be paid by those who schedule the following courses.

Education 350	\$30.00
Expression 211-212	5.00 each
Expression 214	10.00

The Basic Fee includes registration, tuition, library, laboratory, subscription to the Maroon and Wolf, athletics, forum, physical education, and certain other student activities.

The Matriculation Fee is charged only at the time of a student's first registration in the College of Arts and Sciences.

The Graduation Fee and the Cap and Gown Deposit are paid by Seniors on May 1. The full deposit will be refunded provided the cap and gown are returned in good condition immediately after graduation. If they are returned more

than two months after graduation, only \$10.00 will be refunded.

The Late Examination fee will be charged for any examination taken later than the assigned date, no matter what the excuse. Except for sickness, no late examination will be given unless permission is obtained from the Assistant Dean prior to the regularly scheduled examination.

Students will be taxed for excessive breakage or destruction of University property. The decision covering each case will be made by the University.

Until a student's indebtedness is paid in full, no transcript of credits or record of his work will be released from the University.

Refund Policy It is the sole duty of the individual student, in case of interruption of courses, to make formal application to the Registrar's office for refunds, which will be made as follows:

Within first week of semester.....	80%
One week to three weeks of semester.....	60%
Three weeks to five weeks of semester.....	40%
No refund after five weeks.	

No refunds are made when a student is suspended, dismissed for disciplinary reasons, or fails to pass in prescribed or elected courses. *Refund policy applies on basic fee only.*

Student Housing Dormitory facilities are not available at the University. The University maintains, but does not supervise, a limited number of rooming houses for male students. Students may board and lodge only at rooming houses approved by the University authorities. Names and locations of such approved and inspected houses will be furnished by the Assistant Dean. Meals may be obtained at the University Cafeteria.

ADMINISTRATIVE PROCEDURE

Instruction The unit of instruction is one hour a week for one semester. Two hours of work in a laboratory are considered equivalent to one hour of class work. Students may receive credit only for the number of hours published for a

course. No credit will be allowed for a course for which a student is not registered as a regular student.

A student is required to take a minimum of twelve semester hours of work each semester. Upper division students may not elect Freshman courses except as provided in the regulations for combined courses.

Attendance as auditors is not granted without written permission of the Dean.

Withdrawal A student who withdraws from the University during a semester before taking the final examinations of the semester forfeits all credit for work done in that semester.

To obtain his honorable dismissal on withdrawing from the University, the student must obtain from the Dean a written permission for such withdrawal, which must be presented to the Registrar. This written permission will not be given if the student has not met all financial obligations to the University, or if he is under any official censure, or if there is any official charge pending against him.

A student desiring to withdraw from a scheduled course or to add another course after his semester's schedule has been filed in the Registrar's office may do so only after having obtained written permission from the Dean. Permission to add a course or to change from one section of a course to another will not be granted after the date indicated in the Session Calendar as the last day for schedule adjustments.

Attendance The University is insistent on regular and punctual attendance. Each tardiness, defined as a student's failure to be present when his name is called at the beginning of each class or laboratory, will be counted as a third of an absence.

The student coming late is responsible for seeing that the instructor changes the absence noted at the beginning of the class to a tardiness.

Any student incurring more than six absences in a course which carries three or more semester hours will be dropped from the course automatically. In courses of less than three semester hours the maximum number of absences will be double the number of semester hours, e.g. in a two semester hour course, four absences will be the maximum allowed; in a one semester hour course, two absences will be the maximum.

Students who have exceeded the maximum number of absences will have a right to petition the Committee on Attend-

ance, if their class standing is good and a serious reason has warranted each absence.

Students petitioning reinstatement should do so within twenty-four hours after they receive notification that they have been dropped from a course. The petition must be submitted by letter to the Assistant Dean and must include the reason for each absence, giving dates, etc. While the petition is being reviewed by the Committee on Attendance the student will be permitted to attend classes. The decision of the Committee on Attendance will be final.

Extended absences due to sickness must be verified by a doctor's certificate. Attendance at funerals or weddings, outside work, transportation difficulties, and the like will not be accepted as excuses for excessive absences.

Students entering class more than five minutes after the starting bell will be recorded absent.

Absences for any excuse whatever do not exempt a student from quizzes, tests, examinations, or other written work required during the period of absence. The responsibility for making up such work rests wholly upon the student. A failing grade for the omitted work will be charged against the student if he does not fulfill his obligations within the time limit determined by his professors.

Discipline The educational system of this University includes, as one of its most important features, the formation of character. It is expected that each student will be so loyal to the spirit and ideals of the University that the exercise of proper self-control will come from his own convictions and free determination.

It is intended that the college regulations be a guide and help to foster that gentlemanly conduct which is presupposed in every Loyola student. The College requires regular and punctual attendance at all scheduled exercises, observance of college customs and regulations, serious application to study, and inoffensive conduct. A student who shows himself deficient in these essential points will be suspended or dismissed.

The University reserves the right to dismiss at any time a student who fails to give satisfactory evidence of earnestness of purpose and of interest in the serious work of college life. In rare cases a student may be dismissed for a reason that seems to students and parents to be insufficient. In

such cases the University is to be considered the more capable judge of what affects the interests both of the institution and of the student body.

Military Training All male freshmen in the College of Arts and sciences are obliged to enroll in the University R. O. T. C. Unit. (Cf. Pgs. 52-57).

Grades and Reports A report of the semester grades made by a student in his scheduled subjects is sent to the student at the middle and end of each semester. Other reports will be sent by the Dean whenever he judges it advisable to do so.

Grades are reported as follows: "A," excellent; "B," very good; "C," good; "D," merely passing; "E," conditioned; "F," failed; "FE," failure because of excessive absences; "FS," failure because of pre-examination scholastic deficiency; "W," withdrew from subject course with permission; "WF," failure because of withdrawal from subject course without permission.

The semester grade in any subject is based on pre-examination work, which counts for 60% of the final grade, and the final examination, which counts for 40% of the final grade. Pre-examination work includes a term paper of 2500 words (10%), other written assignments (10%), at least five formal quizzes (50%) and the mid-semester test (30%).

Official grades are expressed in letters, not numbers. The numerical values of the letters used are as follows: A—93 to 100; B—85 to 92; C—77 to 84; D—70 to 76; E—60 to 69; F—0 to 59.

A student must earn the right to take the semester examination in each of his scheduled subjects. To do so he must have attended the required number of class and laboratory periods in the subject, he must have submitted the required term paper, and he must have made a minimum average grade of "D" for the semester's work in the subject prior to the semester examination. This average will be computed from the grades made in the quizzes, the mid-semester test, the term paper, the laboratory work, and all other work required in that subject. A student who fails to qualify for a semester examination in a subject will be charged with a failure in that subject.

When a student, at the end of a semester, makes the passing grade of "D" or a higher grade, he is credited with the semester hours allowed for the subject course in which the grade is made. Otherwise, he is not credited with any semester hours.

When a student is conditioned in a subject course at the end of a semester, he may remove the condition by examination. Only one such examination is allowed, and only on the day assigned by the Dean. If the student is successful in the examination, he receives full credit of semester hours, but the highest grade that he is allowed is "D." If the student fails to remove the condition on the day assigned by the Dean, the condition becomes a failure. A student is not allowed to remove more than two conditions of one semester.

Repetition of Courses A student who has failed a course will be allowed to repeat that course when it is next offered. No more than two repetitions of the same course will be allowed to any student.

For repetition of courses to raise the quality of a student's work, cf. page 35, "Quality of Work."

Classification of Students Those students are ranked as Sophomores who have credit for twenty-four semester hours; Juniors, those who have fifty-six semester hours; Seniors, those who have ninety-two semester hours. Students not included in any of these classifications are registered either as special students or as out-of-course students.

Scholastic Standing The standing of a student is computed on all hours attempted, including elementary languages, but excluding authorized withdrawals. All attempts at a course which has been failed and repeated or which has been repeated to raise the quality of work will be counted in computing a student's scholastic standing.

Scholastic Probation and Dismissal 1. All students admitted on the basis of entrance examinations and veterans admitted, by concession, without the required quality in their previous academic records will be placed on scholastic probation for one semester. If at the end of one semester such a student has earned a "C" average and has passed all subjects scheduled, he will be removed from probationary status. If he fails to make a "C" average but achieves an average

of at least 0.5 and does not fail more than one subject, he may apply for an extension of his probationary status, which will not under any circumstances be extended beyond one more semester, during which he must pass all subjects and raise his average for the year to a "C". Should he fail to meet the above conditions, he will be dismissed from the University for scholastic deficiency.

2. Students who fail two subjects or whose average is less than 0.5 in any one semester will be placed on probation for the next semester. If, in the next semester, they fail to earn a "C" average and pass all subjects scheduled, they will be dismissed from the University.

3. Students who fail three or more subjects in one semester will be required to leave the University for a semester. If they return they must earn a "C" average and pass all subjects scheduled in the semester following their return. Otherwise they will be dismissed from the University.

4. Students who do not have a general "C" average and a "C" average in their major and minor fields of concentration at the end of their sophomore year or at the beginning of the last semester of their senior year will be given one semester to remedy their deficiencies. During that semester, they may not schedule any advanced courses. If they fail to attain the required "C" average, they will be dismissed from the University.

5. Students on scholastic probation will not be allowed to schedule more than 12-14 semester hours.

6. As far as possible, in keeping with University regulations and Summer Session schedules, all courses failed must be repeated in the Summer Session. Students who neglect to repeat such courses in the Summer will not be allowed to begin the next year of their degree program until the courses failed have been repeated successfully.

Part-Time Courses For the convenience of teachers and of others who have satisfied the requirements for college entrance, the University offers evening courses, Saturday morning courses, and summer courses. Such students schedule fewer courses per semester than are required of students attending the full-time day courses. For further details see special bul-

letins for these courses. A limited number of students who have not satisfied the regular requirements for college entrance are permitted to take these part-time courses merely for cultural purposes. They are not allowed college credit for such studies until proper entrance credentials have been approved and placed on file in the University.

Combined Courses A student who has completed the Junior year in the College of Arts and Sciences may enter upon his professional studies and after one year of such studies may receive a degree from the College of Arts and Sciences, provided he has fulfilled the following requirements: (1) Before transferring to the professional studies he must have completed all the subject courses of the College of Arts and Sciences specifically required for the academic degree; (2) he must have been registered during the entire year as a Senior in the College of Arts and Sciences and as a First Year student or Freshman in the professional school in which he is taking his professional studies, and his program of first year studies in the professional school must have been approved at the beginning of the session by the Dean of the College of Arts and Sciences; (3) he must have completed successfully the first year of his professional studies as required by the professional school for his promotion to the second year of professional studies in that school, although not more than twenty-two semester hours of such studies will be accepted toward his academic degree; (4) he must not be under any official censure either in the College of Arts and Sciences or in the professional school; (5) he must see that an official record of the studies which he has taken and the grades he has made in them during his first years of professional studies, together with a statement that he has been promoted to the second year of professional studies and that he is not under any official censure in the professional school, be sent by the Dean of the professional school to the Dean of the College of Arts and Sciences.

Such a candidate for a degree from the College of Arts and Sciences must be present with the other candidates for degrees at the Baccalaureate Services and the Commencement Exercises of the University.

Requirements for Undergraduate Degrees *I. The Amount of Work*—To receive a baccalaureate degree, a student is re-

quired to complete at least 128 semester hours, distributed normally throughout eight semesters in such manner as to include in his last four semesters a field of concentration consisting of 30 to 36 semester hours of upper division work in related courses, 18 of which must be taken from one field and 12 from one or more related fields.

Before the end of his Sophomore year, the student, with the assistance of the Chairmen of the Departments, will select his field of concentration. No student will be permitted to begin his field of concentration unless he has the rating of a Junior, has completed his lower division course requirements, has an average of "C" for all courses completed and has an average of "C" in the lower division subject courses of the major and minor fields he intends to elect. The field, as outlined by the Chairmen, must be submitted in duplicate form to the Dean for his approval. After such approval, any change in the student's field of concentration is not allowed without permission of the Dean. Ordinarily such a change will prolong the time required for a degree. Students who have transferred from another college must complete their last 32 hours and 50 per cent of their field of concentration in residence.

Students who wish to schedule courses at other colleges and have such courses recognized as partial fulfillment of their Degree Program at Loyola must obtain the written permission of the Dean before such courses are scheduled. Failure to obtain such written permission will render the courses unacceptable to Loyola.

N. B.—The curricula above contain only the minimum subject requirements. Upper division requirements must be added in most cases. These consist of at least 18 semester hours in the major field of concentration and at least 12 semester hours in the minor. For more detailed outline of programs Cf. Pgs. 38-51.

*Students may choose one of courses so marked.

**This requirement is for Catholics only. Part-time students are required to take only 8 semester hours. Transfer students must schedule Theology every semester they are in attendance.

†For majors in Physics and Mathematics, lower division requirements are 10 hours in Physics, 8 hours in Chemistry and 10 hours in Mathematics; for majors in Chemistry, 16 hours in Chemistry, 10 hours in Physics and 10 hours in Mathematics; for majors in Biology, 16 hours in Biology, 16 hours in Chemistry and 6 hours in Mathematics; for majors in Medical Technology, 16 hours in Medical Technology, 16 hours in Biology and 12 hours in Chemistry.

III. Quality of Work A candidate for a degree must present not only the required character and quantity of work, (Cf. pgs. 38-51), but he must attain a certain standard of excellence in his work, especially in his major and minor areas of concentration. Hence, the candidate for a bachelor's degree must present, in addition to the minimum of 128 semester hours of credit, a minimum of 128 quality points, or an average grade of "C" or better. Moreover, a student must make a "C" average in each area of his field of concentration.

Quality points are earned in the following manner: For the grade of "A" in a subject course, the student is credited with three times as many quality points as semester hours allowed for that course; for the grade of "B," twice as many quality points as semester hours; for the grade of "C," just as many quality points as semester hours; for the grade of "D," semester hours are credited, but not quality points; for the grade of "F," a number of quality points equal to the number of semester hours assigned to the course will be subtracted from the student's total of quality points.

With the permission of the Dean, a student may repeat a course already successfully completed in order to better the quality of his work. No third attempt will be allowed. In computing the student's average, all attempts will be counted.

IV Other Requirements In addition to the above requirements, the following regulations must be observed:

(1)—The candidate for a degree either must submit a thesis of approximately 5,000 words on a particular phase of his major subject, or must take a comprehensive examination in his major subject, depending upon the regulations of the department of his field of concentration.

(2)—A. Before writing his thesis the student must obtain from the Chairman of the department of his field of concentration the approval of the subject of his thesis. He must present to his Chairman two copies of the completed thesis not later than the date assigned in the Session Calendar. The Chairman's approval of the thesis is required for graduation.

B. If the student is to take a comprehensive examination, the field of examination is to be determined by the Chairman of the Department of his major subject. The successful completion of this examination is required for the graduation of the student.

(3) At the beginning of the scholastic year in which the candidate expects to complete the work required for his degree he must present to the Registrar a formal application for that degree.

(4) One month before the date of graduation, the candidate must pay his graduation fee and discharge all other financial indebtedness to the University.

(5) All candidates for degrees must be present at the Baccalaureate Services and the Commencement Exercises. The University will not confer degrees *in absentia*.

Graduation Honors Graduation honors are computed according to the quality point system. A student's graduation average is determined by dividing the total number of quality points earned by the total number of semester hours attempted by the student during his entire course. Semester hours carried include all hours attempted, excluding authorized withdrawals, but including failures and all attempts at a course which has been repeated in order to raise the total of quality points. A student who has made an average of 2.5 graduates *cum laude*; one who has made an average of 2.8, *magna cum laude*; one who has made an average of 3, *maxima cum laude*. Record of these honors is inscribed on the diplomas and noted in the list of graduates published for the Commencement Exercises.

Knowledge of Regulations Every student is to acquaint himself with all the regulations of the University that pertain to him. Ignorance of a regulation is not accepted as an excuse for its violation. These regulations are to be learned from the General Bulletin of the University, the Students' Handbook, official instructions given to the students, and posted official notices. When a student registers in the University, it is understood that both the student and the student's parents or guardians agree to the student being governed by the regulations of the University, and will abide by decisions that may be made by officials in the University regarding the student.

DEPARTMENT OF MILITARY SCIENCE AND TACTICS RESERVE OFFICERS TRAINING CORPS

The War Department maintains a Corps of Military Police Unit at Loyola. However, a student may receive a Reserve Commission in his Professional Major.

Requirements

All physically fit male students of the College of Arts and Sciences, except veterans, are required by the institution to participate in two years of Military Training, normally during their first two years. In the session 1949-50, only Freshmen will be required to schedule Military Training. Thereafter it will be required of Freshmen and Sophomores. Physical fitness is determined by examination without additional expense to the student. Those who fail to take the physical examination at the proper time or who have late registrations will be charged a nominal fee (approximately \$2.00).

Senior R.O.T.C. Program

The Senior R.O.T.C. program consists of two parts: (1) Basic Course and (2) Advanced Course, including a summer camp.

(1) **Basic Course.** The Basic Course consists of formal instruction for a minimum of three hours per week for two academic years of at least 30 weeks each. The War Department allows the Professor of Military Science and Tactics, at his discretion, to allow up to two years credit in the basic course for previous honorable active service in the Armed Forces. Veterans of World War II who have had six to twelve months service may be given one year of credit in the basic course and veterans who have had over twelve months service may be given two years of credit in the basic course.

(2) **Advanced Course.** The Advanced Course consists of military instruction, principally of a specialized type applicable to the service concerned, for a minimum of five hours per week for two academic years of at least 30 weeks each. Entrance to the Advanced R.O.T.C. Course is limited to those students taking an academic course on the college level, who have completed the basic course or received credit for prior

service as prescribed above. The course is of a specialized branch type, designed to qualify selected students for reserve commission in the Corps of Military Police.

Summer Camp

Members of the Advanced Course are required to attend camp one summer, normally between the first and second year. All students going to camp receive mileage for the round trip from school at the rate of 5c per mile and are housed, uniformed and given medical attention at government expense while at the camp. The duration of camp is six weeks and begins about the middle of June.

The military training will consist of practical and theoretical instruction of a specialized branch type. In addition to this training, the student has an opportunity to participate in healthy outdoor sports of all kinds and in competition with young men from other colleges. All students attending camp should take with them athletic shorts, tennis shoes and swimming suit. A well planned religious program is conducted at the camp by experienced chaplains.

Distinguished Graduates

Those graduates who have completed the entire ROTC Course and who have been selected by the President of Loyola University for scholastic excellence, may be designated as "Distinguished Graduates" by the Professor of Military Science and Tactics, as possessing outstanding qualities of leadership, character and aptitude for Military Service. Such "Distinguished Graduates" are considered in selection of applicants for appointment in the Regular Army, provided they are eligible under existing laws and regulations.

Honor Cadets

At the conclusion of each semester, cadets of both Basic and Advanced Courses will be selected as "Honor Cadets." Such cadets will be authorized to wear, during the succeeding quarter, a star of blue cloth, one inch in diameter, six inches above the lower edge and centered on the outside of the left sleeve of the uniform blouse, or the shirt when the blouse is not worn. Cadets, to be so designated, must meet the following qualifications:

1. Academic Military standing of at least 90%
2. A leadership efficiency rating of **Superior**
3. No unexcused "Cuts"
4. No unexcused "Tardys"

Enrollment and Continuance

The general requirements for enrollment and continuance in the ROTC are that the student be a citizen of the United States, physically qualified as prescribed by the Department of the Army, accepted by the institution as a regularly enrolled student, be not less than 14 years of age and must not have reached 23 years of age at time of enrollment except for veterans of World War II, who must successfully complete such general survey or screening tests as will be given to determine eligibility for admittance to Basic and Advanced Course, agree in writing upon admission to the Advanced ROTC Course to complete the course of instruction offered unless released by the War Department. Should a student fail to continue the prescribed course while at Loyola University, he may be requested to refund the government any sums previously paid.

Academic Credit

Academic Credit is granted for the completion of the Military Course on the basis as indicated below:

	1st Semester	2nd Semester	Total Credit Hours
Basic 1st Year	2	2	4
Basic 2nd Year	2	2	4
Advanced 1st Year	3	3	6
Advanced 2nd Year	3	3	6

Emoluments

Advanced ROTC Course Students will be paid a monetary allowance at a daily rate equal to the value of the commuted ration which at present is 90c per day. Students attending ROTC Summer Camps will be paid at the rate prescribed for soldiers of the 7th grade of the Regular Army.

Members of the Advanced Course are not in the Active Service. ROTC subsistence allowance is paid to veterans who are enrolled in the Advanced Course in addition to subsistence allowance under Section 400(b) Servicemen's Readjustment Act of 1944. Similar benefits, such as those derived from service incurred disability are authorized to veterans enrolled in the Advanced Course, who are also drawing ROTC subsistence allowance. This means that a

member of the Advanced Course ROTC, who is drawing disability compensation for a service incurred disability, is not required to waive such compensation. He must be physically re-examined for enrollment in the ROTC. Temporary defects may be waived by the Commanding General, Fourth Army. However, physical defects of such a nature that they are likely to exist at the time of graduation from ROTC and which may not be waived for appointment in ORC, will not be waived for enrollment or continuance in the ROTC.

Uniforms

All ROTC Students are required to deposit \$20.00 with the Treasurer of the University prior to enrollment in the Basic and Advanced Courses. The student will then secure the prescribed uniforms and insignia, which are loaned to the student by the Government, from the ROTC supply house. Any necessary repair or replacements of articles or uniforms must be made by the student. The uniform deposit will be returned to the student upon the completion of or withdrawal from the Course. Final settlement will be made by the Treasurer's Office. Students will not wear a combination of military and civilian clothing. Uniforms will be worn only on drill days.

Texts and Equipment

The Government will provide the necessary texts and equipment to carry out the ROTC Program on a loan basis to the student.

Rifle Team

A rifle team chosen through individual competition will be selected to represent the ROTC in Hearst Matches and in matches with other colleges and universities. The firing is conducted with modern small bore rifles on an indoor range.

The Basic Course

Military Instruction is of a general type applicable to the Army as a whole, and is for the purpose of providing the student with a foundation of basic military knowledge for the future officers.

THE GRAND COTEAU DIVISION OF THE COLLEGE

GRAND COTEAU, LA.

Saint Charles College, situated at Grand Coteau, Louisiana, in the southwestern part of the state, is a part of the College of Arts and Sciences of Loyola University. It is the training school for the members of the New Orleans Province (Southern States) of the Society of Jesus. The collegiate studies pursued there are the first part of the educational training in the formation of a Jesuit. These four years of study are followed by three years in the School of Philosophy and Science, by a period of teaching of three to five years, then by four years of theology in the School of Divinity, and finally by one year devoted to higher ascetical study.

On his admission to the Jesuit Order, the student begins a period of two years of study that is largely ascetical, consequently non-academic, in character. To keep up his academic interests, however, about three hours each day are devoted to academic study, one to Latin, another to Greek, and a third to English, and vacations as well as other periods of leisure are utilized for the acquisition of modern foreign languages.

During the second period of two years, however, the student's interest is concentrated on humanistic studies. As a majority of the members of the Jesuit Order spend their entire lives in teaching or in school administration, all are required to spend from three to five years in teaching, between the period of their philosophical and that of their theological studies. The training required for such a life of classroom activity is begun in the Grand Coteau Division of the College of Arts and Sciences.

In accordance with these purposes of the school, the enrollment in this Division is limited to the members of the Jesuit Order.

Requirements The minimum entrance requirement to this **For Admission** Division is the completion of a standard high school course requiring four years of Latin. A large number of students, however, have completed at least two years of college study. Because of the differences in previous preparation, private study under the most careful individual guidance

and a modified tutorial method of instruction are offered the student to enable him to enjoy the fullest opportunity for self-development.

Advanced Standing Students who have already secured their baccalaureate degree, or who have finished a portion of their college work, may complete the required studies in a shorter time than the period ordinarily prescribed. Under exceptional circumstances, the student may be required to take only courses in education, so that he may comply with the prerequisites for teaching as demanded by law in the various states and by the prescriptions of the standardizing agencies.

Organization and Courses The Grand Coteau Division is administered by an Associate Dean of the College of Arts and Sciences.

Since one of the primary purposes of the Division is the education of future teachers, the various systems of education in their historical development as well as in their practical effects are reviewed, but emphasis is placed largely upon the *Ratio Studiorum*, which is the method of teaching traditional in the Jesuit Order. Another primary purpose of the Division is to deepen the student's appreciation and love of the classical languages, and every effort is made to develop scholarly interest in the subjects on the part of those who show special aptitude. The courses offered in the Grand Coteau Division are listed on pages 84-89 of this Bulletin.

Examinations Examinations are held at the end of each semester. They are both oral and written, and a rigorous test is exacted in each of the subjects of study. If it should be found that a student is unable to complete the courses in a satisfactory manner within the prescribed time, he is required to add one or more years to his course before being allowed to proceed.

DEPARTMENTS OF INSTRUCTION

The courses of instruction in all departments of the College of Arts and Sciences are numbered in accordance with the following plan:

Lower division courses, numbered from 100 to 299, are, in general, introductory, and basic.

Upper division courses are numbered from 300 to 399. For these courses, basic training in the same or in allied subjects is a prerequisite.

The college credit allowed for a course is stated in terms of semester hours.

The following is a list of the key letters used to indicate the different courses of instruction:

DEPARTMENT OF BIOLOGY

John G. Arnold, Jr., Ph.D., Chairman

Bl. 101 General Botany A course designed to acquaint the student with the biology of the plant kingdom. Fundamental principles, including the morphology and physiology of the cell, are first considered. A study is then made of the morphology, relationships, and life histories of representative examples of the major plant groups. Genetics and the economic importance of plants are considered briefly. Two lectures and two laboratory periods. Fall. 4 sem. hrs.

Bl. 102 Plant Taxonomy A course of study in the methods of plant identification embracing only the classification of the seed plants. This course is especially designed to make the student familiar with the local flora. The genetic relationship of the major families are investigated, and a large number of representative plants are collected in the field. The main vegetation types of Louisiana and North America are also considered. Two lectures and two laboratory periods. Prerequisite: Bl. 101. Spring. 4 sem. hrs.

Bl. 104. General Zoology. A continuation of the Course Bl. 101. A comprehensive study is made of typical invertebrate and vertebrate animals. Cell division, embryology, and heredity are also considered. Two lectures and two laboratory periods. Spring. 4 sem. hrs.

Bl. 105 Invertebrate Zoology A study of the underlying principles of animal life. The taxonomy, morphology, physiology, life history, habits, and distribution of the Invertebrata are considered. Two lectures and two laboratory periods. Fall. 4 sem. hrs.

Bl. 106. Vertebrate Zoology A study of the taxonomy, morphology, physiology, life history, habits, and distribution of vertebrate animals. Reference is made to the lower chordate animals. Embryology, genetics, and ecology are considered briefly. Two lectures and two laboratory periods. Prerequisite: Bl. 105. Spring. 4 sem. hrs.

Bl. 201 Comparative Anatomy of the Vertebrates An intensive laboratory study of type vertebrates, accompanied by lectures on vertebrate phylogeny and anatomy. Two lectures and two laboratory periods. Prerequisite: Bl. 101-104 or Bl. 105-106. Fall. 4 sem. hrs.

Bl. 202 General Embryology A study of the origin and maturation of germ cells, fertilization, and the formation of germ layers in certain typical invertebrate and vertebrate animals. Knowledge of the development of the systems of a vertebrate is obtained through an intensive study of whole mounts and serial sections of the chick and pig. Two lectures and two laboratory periods. Prerequisite: Bl. 201. Spring. 4 sem. hrs.

Bl. 301 Bacteriology This course embraces bacteriological technique, the classification and the study of the properties of important non-pathogenic and pathogenic bacteria. The principles of immunity and serology, and a brief survey of filtrable viruses are also considered. Two lectures and two laboratory periods. Prerequisite: Bl. 105-6 or equivalent. Fall. 4 sem. hrs.

Bl. 302 General Histology The study of the microscopic structure of tissues and organs of the mammalian body, and the study of the fundamentals of hematology. Two lectures and two laboratory periods. Prerequisite: Bl. 201. Spring. 4 sem. hrs.

Bl. 303 General Physiology The study of the normal function of tissue and organs of animal forms. Special emphasis is laid on the mammalian type in order better to understand human physiology. Three lectures and one laboratory period. Prerequisite: Bl. 201. Spring. 4 sem. hrs.

Bl. 305 Animal Parasitology A study of parasites in relation to disease. The various types of parasites, their life histories, and the conditions which they cause will be considered. Two lectures and two laboratory periods. Fall. 4 sem. hrs.

Bl. 306 Animal Microtechnic A course in the principles and methods of preparing animal material for microscopical study. The student is given practice in fixing, embedding, sectioning, staining, and mounting tissues; the preparation of whole mounts. One lecture or conference, and at least three laboratory periods a week. Prerequisite: Bl. 302. Spring. 4 sem. hrs.

Bl. 311 Limnology Physical, chemical, and biological factors determining biological productivity and associated phenomena in inland waters. Experience in use of methods and instruments for environmental analysis. Intensive field studies on local lakes and streams. Two lectures and two laboratory periods. Fall. 4 sem. hrs.

Bl 312 Field Zoology The taxonomy, life histories and general ecological relationships of the common animals (exclusive of the terrestrial insects, the birds, and the mammals) of south Louisiana and the New Orleans area particularly. Two hours lecture and four hours laboratory or field work per week. Prerequisite: Bl. 101-104 or Bl. 105-106. Spring. 4 sem. hrs.

Bl. 390-391. Biological Problems. This is a course to allow the student to carry on advanced biological work under faculty supervision. This course is open to Seniors. Prerequisite: three years of Biology. Credit determined by work done.

DEPARTMENT OF MEDICAL TECHNOLOGY

John G. Arnold, Jr., Ph.D., Chairman

Md. 101 A course to acquaint the prospective Medical Technician with the ethics of the profession. The course includes a thorough study of the principles and practice of hematology. Fall. 4 sem. hrs.

Md. 102 A course designed to instruct the student in the care and use of laboratory equipment and the principles of urinalysis. Spring. 4 sem. hrs.

Md. 201 This course includes a review of the fundamentals of urinalysis and hematology, and detailed studies in the technique of electrocardiography and basal metabolism. Fall. 4 sem. hrs.

Md. 202 A study of the principles of gastric analysis. Duodenal analysis and fecal analysis. Spring. 4 sem. hrs.

Md. 301-302 A comprehensive review of all preceding courses with further studies in techniques and interpretation of results. The following subjects are included:

Urinalysis	Gastro-Enterology
Hematology	Pathogenic Bacteriology
Serology	Basal Metabolism
Tissue Sections	Electrocardiography
Parasitology	Museum Preparation Technique
Fecal Analysis	Gross and Microscopic Photography
	8 sem. hrs.

Md. 390-391 This course is a practical application of principles of Medical Technology which have been covered in the preceding courses in the Department. This course is of one academic year duration beginning at the end of the Junior Year. It is taught in various local hospitals or private laboratories which have been approved by the American Medical Association and the American Society of Clinical Pathologists. Practical laboratory internship experience is allowed for this course. 16 sem. hrs.

DEPARTMENT OF CHEMISTRY

Rev. George A. Francis, S.J., Ph.D., Chairman

Ch. 101-102 General Inorganic Fundamental principles of chemistry; the laws of chemical action and description of the non-metallic and metallic elements and their compounds. Two lectures, one recitation, and two laboratory periods. 8 sem. hrs.

Ch. 103-104 General Inorganic A lecture demonstration course in the essentials of chemistry for majors in Education. This course does not fulfill the requirements for any other degree program. (First semester only). 4 sem. hrs.

Ch. 201-202 Organic Chemistry Discussion of the important compounds of aliphatic and aromatic series and preparation of typical compounds. Two lectures and two laboratory periods. Prerequisite: Ch. 101-2. 8 sem. hrs.

Ch. 301 Inorganic Qualitative Analysis Detection of the common cations and anions, based on the application of chemical principals. One lecture and three laboratory periods. Prerequisite: Ch. 101-2. Fall. 4 sem. hrs.

Ch. 302 Inorganic Quantitative Analysis Gravimetric and volumetric methods of analysis. One lecture and three laboratory periods. Prerequisite: Ch. 301. Spring. 4 sem. hrs.

Ch. 303-304 Physical Chemistry A general survey of the subject. Treatment of the laws of chemical phenomena—the gaseous, liquid, and solid states of matter. The course treats of thermo-chemistry, laws governing chemical changes, and electro-chemistry. Three lectures and two laboratory periods. Prerequisites: Ch. 302, Ph. 211-14, Mt. 302. 10 sem. hrs.

Ch. 305-306 Industrial Chemistry A study of the more important chemical industries. The course deals with production of petroleum products; animal and vegetable oils and fats; sugar; water for municipalities and for industrial uses; paints, varnishes, lacquers, synthetic plastics; industrial alcohol, etc. Two lecture periods. Prerequisites: Ch. 201-2, 301-2, 303-4 4 sem. hrs.

Ch. 307-308 Technical Methods of Analysis Analysis of the substances discussed in Ch. 305-306. Three laboratory periods. Prerequisites: Ch. 201-2, 301-2, 303-4 6 sem. hrs.

Ch. 309-310 Biological Chemistry A study of the chemical constituents of the body. The chemistry and functions of the carbohydrates, fats, proteins, vitamins, and mineral elements of foods. Two lectures and four hours of laboratory. Prerequisites: Ch. 201-2-302. 8 sem. hrs.

Ch. 311 Identification of Organic Compounds A review of the methods of qualitative organic analysis of pure organic compounds, and of the separation and identification of components of mixtures. One lecture and three laboratory periods. Prerequisites: Ch. 201-202, 301-302. Fall. 4 sem. hrs.

Ch. 312 Organic Preparations A course designed to familiarize the student with the techniques of synthetic organic chemistry; representative preparations involving library work. One conference hour and three laboratory periods. Prerequisites: Ch. 201-2, 301-2. 4 sem. hrs.

Ch. 313-314 Organic Chemistry An intensive course in organic chemistry open only to majors in chemistry. Two lectures, one recitation and two laboratory periods. Prerequisites: Ch. 101-2. 8 sem. hrs.

DEPARTMENT OF CLASSICAL LANGUAGES

Rev. Paul L. Callens, S.J., A.M., Chairman

A. Latin

Lt. 101-102 Basic and Intermediate A course intended to give the essentials of grammar. It is open to all students who have had no Latin in high school and wish to begin the study of the classic languages in College. The semester hours will be credited toward the completion of the total hours

required for graduation but not toward the fulfillment of the language requirement. Five periods a week. Credit is dependent on the completion of Lt. 102. 6 sem. hrs.

Lt. 103 Latin Poets I Selections from Ovid's *Metamorphoses*, Virgil's *Eclogues* and *Bucolics*, Horace's *Odes* and *Epodes*. Fall. 3 sem. hrs.

Lt. 104 Latin Poets II Selections from Virgil's *Aeneid*, Horace's *Ars Poetica*, *Epistles* and *Satires*. Spring. 3 sem. hrs.

Lt. 201 Cicero I Selections from Cicero's *Letters*, *De Amicitia*, *De Senectute*. Fall. 3 sem. hrs.

Lt. 202 Cicero II A study of Cicero's *Orations*. Spring. 3 sem. hrs.

Lt. 301 Historians of the Silver Age Selections from Livy. 2 sem. hrs.

Lt. 302 Authors of the Silver Age Selections from Pliny. 2 sem. hrs.

Lt. 305 Plautus—Terence's Phormio. Fall. 3 sem. hrs.

Lt. 306 Pliny the Elder—Quintilian Selections. Spring. 3 sem. hrs.

B. Greek

Gk. 101 Homer A reading course in Homeric Greek. Essentials of Homeric and Greek Grammar. Vocabulary. Fall. 3 sem. hrs.

PHYSICAL EDUCATION**

Rev. James F. Whelan, S.J., Ph.D., Chairman

A. Education

Ed. 222 Introduction to Elementary Education The objectives of the elementary school, principles of teaching at the elementary level, guidance, supervision, and evaluation at the elementary level. Spring 3 sem. hrs.

Ed. 230 Child Psychology The application of the laws and principles of psychology in the process of guiding and directing the growth and development of the child to maturity. Fall. 3 sem. hrs.

Ed. 254 Children's Literature This course includes appropriate stories and poems of the accredited Louisiana Library List from the primary through the upper elementary level. Fall. 3 sem. hrs.

Ed. 255 Geography For Elementary School Teachers This course provides an intensive study of geography as a background for the teaching of the social studies. Spring. 3 sem. hrs.

Ed. 303 The Program of Secondary Education The purpose of this course is to bring about an understanding of the organization of learning programs in the secondary school and a knowledge of the materials and methods suited to the needs of secondary pupils. Part 1 of this course includes: The development of the American high school, the formulation of an educational philosophy of the American secondary school, the objectives and functions of secondary education, the program of the American secondary school, the organization of the program of secondary education, the nature and purpose of the high school curriculum, the identification and analysis of the problems involved in curriculum-making in the secondary school, and curriculum-making and the program of studies for secondary education. Fall. 2 sem. hrs.

Ed. 304 The Program of Secondary Education This course is a continuation of Ed. 303. It includes: Means and materials of the high school curriculum, the pupil activity program, the organization of curriculum materials and elements of learning and teaching, curriculum evaluation, revision, and adjustments, organization of secondary school pupils, guidance service in the secondary school, library service in the secondary school, and organization of the secondary school staff. Spring. 2 sem. hrs.

Ed. 305 The Program of Secondary Education This course is a continuation of Ed. 304. It includes: Schedule making in the secondary school, developing work habits and study skills, evaluation of learning and teaching, the secondary school plant and equipment, general management of the secondary school, supervision in the secondary school, the secondary school and community relations, and the evaluation of the secondary school. Spring. 2 sem. hrs.

Ed. 310 History of Education The historical foundations of modern education; the aims and methods of education in our western civilization. Fall. 3 sem. hrs.

Ed. 333 Educational Psychology The purpose of this course is to understand how pupils learn and the implications of the learning process for secondary pupils. The course includes: psychology and its relation to education, heredity and environment: implications for education, physiological foundations of behavior, unlearned behavior: reflexes, instincts, and emotions, growth and maturation, nature of the learning process, theories and types of learning, psychological factors influencing learning: attention, interest, motivation, inhibition, physiological factors influencing learning: fatigue, age, organic defects, physiological limit, etc., physical factors influencing learning: time of day, atmospheric conditions, distracting agencies, drugs, etc., acquisition and retention: learning curves, transfer of training. Spring. 3 sem. hrs.

Ed. 350 Practice Teaching This course includes 45 hours of observation and 45 hours of actual teaching under the supervision of a critic teacher and the Director of Practice Teaching. Prerequisites for secondary-school teaching; a point-hour ratio of 1.25 quality points in the teaching field

and the successful completion of Ed. 303, 304, 305, 351. Prerequisites for elementary-school teaching: the successful completion of the junior year of the elementary-school program. There is a fee of thirty dollars for this course. Fall.
4 sem. hrs.

Ed. 351 Methods Related to Specific High School Courses This course includes the psychology of specific high school subjects and the methods of teaching these subjects. The course is supplementary to Ed. 350. Fall.
2 sem. hrs.

Ed. 354 The Teaching of Arithmetic In The Elementary School A review of arithmetic, the development of number concepts through insights and understandings growing out of the child's experience. The use and the interpretation of diagnostic materials and analysis of the abilities used in problem solving. Fall.
3 sem. hrs.

Ed. 355 The Teaching of Science in the Elementary School The offerings of nature study and science toward the unification of the curriculum stressed through the use of visual aids. Spring.
3 sem. hrs.

B. Physical Education*

Ped. 170 Theory and Practice of Football A course in the fundamentals of football. This course includes the methods and materials used in teaching the subject.
2 sem. hrs.

Ped. 171 Theory and Practice of Basketball A course in the fundamentals of basketball. This course includes the methods and materials used in teaching the subject.
2 sem. hrs.

Ped. 172 Health Education Course I A course in history, factual information, administration of health examinations, and modern trends in health education.
2 sem. hrs.

Ped. 175 Theory and Practice of Minor Sports A course in the fundamentals of minor sports, including organization, rules, and team play. This course is for classroom teachers.
2 sem. hrs.

* Students who are not majoring in Physical Education may receive academic credit for Ped. 176 and for Ped. 178; these students may receive credit in other courses of Physical Education for certification only. Women may not register for Ped. 170, Ped. 270, Ped. 272, and Ped. 372.

Ped. 176 Safety and First Aid for Teachers This course deals with safety and the teaching of safety. It includes the fundamental techniques useful in emergency situations. This course is for classroom teachers. 2 sem. hrs.

Ped. 370 Principles, Organization, and Administration of Physical Education, Course I This course includes management, aims, objectives, and basic principles of physical education. 3 sem. hrs.

Ped. 371 Normal Diagnosis, Applied Anatomy, and Individual Correctives (Kinesiology) This course includes examination, classification, and remedial athletics for the physically handicapped child. 3 sem. hrs.

Ped. 374 Principles, Organization and Administration of Physical Education, Course II This course deals with the direction of intramural activities at the various grade levels. 2 sem. hrs.

Ped. 375 Theory and Practice of Minor Sports A course in the fundamentals of minor sports, including organization, rules, and team play. 2 sem. hrs.

Ped. 376 Safety and First Aid Advanced Course A course in the teaching of safety and techniques useful in emergency situations for the classroom teacher of health and physical education. 2 sem. hrs.

DEPARTMENT OF ENGLISH AND SPEECH

Rev. Eugene J. O'Connor, S.J., Ph.D., Chairman

A. English

En. 001 Grammar and Composition Review of grammar and practice in correct writing. Taken by students who demonstrate in the placement test a noticeable weakness in fundamentals. Three periods a week. No credit.

En. 101 Freshman Composition Rapid grammar review and introduction to accurate and comprehensive reading; introduction to research; the research paper. Fall. 3 sem. hrs.

En. 102 Freshman Composition Continuation of comprehensive reading; introduction to literary readings and forms; language as communication on all levels. Spring. 3 sem. hrs.

En. 103 Advanced Composition Principles of style. Forms of discourse. A knowledge of correct English is presupposed in this course, which replaces En. 101 for those students whose Placement Test score indicates a mastery of fundamental English composition. 3 sem. hrs.

En. 201 A Survey of English Poetry and Prose Political, intellectual, and religious background from Beowulf to the Romantics. The course is required of all Sophomores. Fall. 3 sem. hrs.

En. 202 A Survey of English Poetry and Prose From the Romantics to the present day. This course is required of all Sophomores. Spring. 3 sem. hrs.

DEPARTMENT OF JOURNALISM

Mr. James E. Kalshoven, A.M., Chairman

Programs of Majors

All students desiring to major in the Department of Journalism must have completed English 101-2 with a grade of at least C. In the sophomore year, the prospective major must take English 201-2 and Journalism 201-2, and must receive a grade of at least C in both, or he will not be allowed to continue as a Journalism major.

Jr. 201 News Writing Elements of news; the lead; style and structure of news stories; news sources; intensive practice in writing leads and the simpler types of stories. Writing done during the laboratory periods is checked and corrected and each student is offered the opportunity for personal conference with the instructor several times during the semester. Fall. 3 sem. hrs.

Jr. 202 News Reporting A continuation of Jr. 201. Emphasis is on developing news judgment and craftsmanship along with skill in the reporting and writing of more complex types of news stories. By lecture and round table discussion, the student is taught how to understand the various types of news events, how to cover them, and how to write the story. Spring. 3 sem. hrs.

Jr. 303-304 News Editing Lectures and intensive practice in copy reading for errors of fact, of English, and of newspaper style; headline writing; news values and policy; libel; page layouts and makeup; reader interest. Students work on the copy desk of The Maroon. Required of all who offer Journalism as a field of concentration. Prerequisite: Jr. 201-202. (Fall and Spring) 6 sem. hrs.

Jr. 306 Modern Feature Writing Analysis of semi-news copy. The field for feature articles; study of newspaper feature articles for daily feature pages, Sunday magazine supplements, and special departments; magazine articles; structure and style; practice in writing features. 3 sem. hrs.

Jr. 307 Radio News Writing A course in news writing adapted for use on the radio. Spring. 3 sem. hrs.

Jr. 321 Editorial Writing Analysis of current news problems. The course seeks to correlate background social science courses and focus them on current affairs. It seeks to familiarize students with reference works and source materials bearing on the background of the news. The function of the editorial; analysis of policies; editorial structure and style; types of editorials. Intensive practice in writing editorials and interpretative articles. Fall. 3 sem. hrs.

Jr. 331-332 Supervised Publication Work Staff duty on The Maroon and practice assignments on New Orleans newspapers; conferences with the instructor. Open only to

Juniors and Seniors. Required of all students taking Journalism as a field of concentration. Prerequisite: Jr. 201-202. Fall and Spring. 4 sem. hrs.

Jr. 340 Public Opinion and Propaganda The nature of public opinion; the role of the newspaper in its formation and how the press in turn is influenced by public opinion. Propaganda analysis; the purpose, devices and effects of propaganda and censorship. The different techniques of censorship. Fall. 3 sem. hrs.

Jr. 341 Press and World Affairs Political, economic, and ethical elements in the world press. Emphasis is placed on the comparison between the press in Europe and the press in the United States, considering pre-World War II conditions as well as changes and developments since World War II. The press as a factor in international affairs. A study of foreign news, the methods by which it is obtained by correspondents in various countries, and the factors affecting news from abroad. Spring. 3 sem. hrs.

DEPARTMENT OF MODERN FOREIGN LANGUAGES

Rev. Louis G. Soniat, S.J., A.M., Chairman

A. French

Fr. 101-102 First Year College Elementary and Intermediate The essentials of French: Pronunciation, grammar, reading. In conjunction with French, the courses advance through graded composition and conversation. For those who offer no language credits from High School. Prerequisite: Passing grade in Aptitude Language Test. Five periods a week. Credit dependent upon completion of French 102. Fall and Spring. 6 sem. hrs.

Fr. 103-104 First Year College Intermediate Review of essentials of grammar, reading, conversation, composition. Course prescribed for those who offer two years of High School language, but have shown notable weakness in placement test. This course will meet three times a week for both semesters. Fall and Spring. 6 sem. hrs.

Fr. 201-202 Second Year College Intermediate Review grammar, selected readings in French literature. Conversation, collateral readings, composition. Course prescribed for all those who have completed Fr. 101-102, 103-104 described above. Fall and Spring. 6 sem. hrs.

Fr. 331 Age of Enlightenment. A literary and philosophical examination of the ideas in the XVIII century. Fall. 3 sem. hrs.

Fr. 341 Nineteenth Century A comprehensive study and interpretation of romanticism, realism, naturalism, parnasianism and symbolism. Spring. 3 sem. hrs.

B. German

Gr. 101-102 First Year College Elementary and Intermediate. The essentials of German: pronunciation, grammar, reading. In conjunction with German, the courses advance through graded composition and conversation. For those who offer no language credit from High School. Prerequisites: Passing grade in Aptitude Language Test. Five periods a week. Credit dependent upon completion of German 102. Fall and Spring. 6 sem. hrs.

Gr. 201-202 Second Year College Intermediate Review grammar, selected readings in German literature. Conversation, collateral readings, composition. Course prescribed for all those who have completed Gr. 101-102 described above. Fall and Spring. 6 sem. hrs.

Gr. 210 Scientific German Designed to familiarize students with the complexities of scientific German; basic science vocabulary and intensive drill in the sentence structure of learned discourse. Major emphasis is placed upon readings in the field of chemistry, physics and biology. This course replaced Gr. 202 for students taking the Bachelor of Science degree with a major in Science. Spring. 3 sem. hrs.

C. Spanish

Sp. 101-102 First Year College Elementary and Intermediate The essentials of Spanish: pronunciation, grammar, reading. In conjunction with Spanish, the courses advance through graded composition and conversation. For those who offer no language credits from High School. Prerequisites: Passing grade in Aptitude Language Test. Five periods a week. Credit dependent upon completion of Spanish 102. Fall and Spring. 6 sem. hrs.

Spanish 103-104 First Year College Intermediate Review of essentials of grammar, reading, conversation, composition. Course prescribed for those who offer two years of High School Language, but have shown notable weakness in placement test. This course will meet three times a week for both semesters. Fall and Spring. 6 sem. hrs.

Sp. 201-202 Second Year College Intermediate Review grammar, selected readings in Spanish literature. Conversation, collateral readings, composition. Courses prescribed for all those who have completed Sp. 101-102 described above. Fall and Spring. 6 sem. hrs.

Sp. 301 Medieval and Renaissance Literature A comprehensive interpretation of the theories and genres of medieval and renaissance literature. Fall. 3 sem. hrs.

Sp. 311 The Golden Age A comprehensive interpretation of the poetry and drama. Spring. 3 sem. hrs.

Sp. 351 Spanish-American Literature A comprehensive study of the prose and poetry, and of the main literary movements in Spanish American literature. Spring. 3 sem. hrs.

DEPARTMENT OF PHILOSOPHY

Rev. Martin P. Burke, S.J., Ph.D., Chairman

Pl. 201 Dialectics Definition and division of philosophy; natural and scientific logic; material elements of logic; acts of the mind; nature of these acts, their kinds, properties, and external expression; formal elements of logic; forms of argumentation; fallacies. Fall. 2 sem. hrs.

Pl. 202 Epistemology The study of truth, logical and moral; falsity; the study of the mind in relation to truth; ignorance; doubt; opinion; nature and kinds of certitude; scepticism; agnosticism; materialism; positivism; idealism; rationalism; traditionalism; criteria of truth. Fall. 2 sem. hrs.

Pl. 203 Ontology Being, its objective concept; essence; states of being; existence; possibility, internal and external; source of internal possibility; kinds of beings: substance and accident; distinction between nature and person; attributes of being; principle of causality. Spring. 2 sem. hrs.

Pl. 204 Cosmology The origin of the world; monism; pantheism; materialism; creation; formation and finality of the world; the constructive properties of bodies; atomism; dynamism; hylomorphism; substantial changes; the laws of nature; miracles: definition, possibility, cognoscibility. Spring.

2 sem. hrs.

Pl. 301 Psychology Life in general; empirical observation of vital action; the power of self-motion; purposive activity; immanency of action; scholastic concept of life; the three essentially different grades of life; the prime principle of life; the theory of evolution; the nature of the soul; the origin of the soul; the immortality of the soul; union of soul and body. Fall.

2 sem. hrs.

Pl. 308 Theodicy Atheism, agnosticism, deism, theism; the existence of God; the essence of God; the divine attributes; God and the world; the materialistic and pantheistic concept of God. Fall.

2 sem. hrs.

Pl. 311 General Ethics Definition, nature, object, and necessity of ethics; subjective and objective ultimate end of man; human action; its merit and imputability; norm of morality, true, and false. Law, natural and positive.

2 sem. hrs.

Pl. 312 Individual and Social Ethics Man's duty to his Creator; man's duty to himself; man's duty to his neighbor; duties to property; society: domestic, civil, international, religious. Spring.

2 sem. hrs.

Pl. 316 History of Philosophy: Early Modern Transition from scholastic to the modern philosophy; a study of philosophic thought from Francis Bacon to Kant. Spring.

2 sem. hrs.

DEPARTMENT OF PHYSICS AND MATHEMATICS

Rev. Karl A. Maring, S.J., Ph.D., Chairman

A. Physics

Ph. 201-3 General Physics The principles of mechanics, heat, sound, light, magnetism, electricity, and fundamentals of atomic physics constitute this course. Three lectures each week. Prerequisite: Mt. 103 and 105.

6 sem. hrs.

Ph. 202-4 General Physics Laboratory course. About fifty graded experiments in mechanics, heat, sound, light, magnetism, and electricity. 2 sem. hrs.

Ph. 211-13 General Physics An intensive course in general physics. It is intended for students whose major fields of concentration are chemistry, mathematics, or physics, as well as for pre-engineering students. The objective of this course is a thorough grounding based on rigorous mathematical treatment in the fundamentals of mechanics, wave motion, sound, heat, light, magnetism, electricity, and molecular physics. Minimum prerequisite: Mt. 107, 108. 8 sem. hrs.

Ph. 212-14 General Physics A companion laboratory course of about fifty selected experiments to Ph. 211. Two laboratory periods each week. 2 sem. hrs.

Ph. 301-3 Electricity and Magnetism A lecture course giving an extended and mathematical treatment of the theory and practical applications. Three lectures per week. Prerequisites: Ph. 211-14, Mt. 301-302. 6 sem. hrs.

Ph. 302-4 Electrical Measurements Laboratory work in electricity and magnetism. Coordinated with Ph. 301-303 and having the same prerequisites. Two laboratory periods. 4 sem. hrs.

Ph. 307-9 Analytical Mechanics The elementary theory of the statics, kinetics, and dynamics of particles and rigid bodies. Three lecture periods. Prerequisites: Same as for Ph. 301-303. 6 sem. hrs.

Ph. 311 Optics The fundamental principles of geometrical and physical optics, with an introduction to modern theories of radiation. Prerequisite: Same as for Ph. 301-303. Three lecture periods. Spring. 3 sem. hrs.

Ph. 312 Optical Measurements This is a laboratory course to accompany Ph. 311. It includes measurements on the index of refraction, spectrometry (visible spectrum), focal length of converging lenses and lens systems, lens aberrations, interference, photometry, polarized light. Two laboratory periods. Spring. 2 sem. hrs.

Ph. 315 Heat and Thermodynamics First and second law of thermodynamics, with special application to the problems of chemistry. Prerequisite: Same as for Ph. 301-302. Three lecture periods. Fall. 3 sem. hrs.

Ph. 316 Laboratory Course in Heat This course is intended as a laboratory course to accompany Ph. 315. Two laboratory periods. Fall. 2 sem. hrs.

Ph. 319 Sound The dynamics of vibrating bodies; transmission of sound; architectural acoustics, loud speakers, and microphones; supersonics; characteristics of speech and hearing. Prerequisites: Same as for Ph. 301-302. Three lecture periods. Spring. 3 sem. hrs.

Ph. 320 Laboratory Work in Sound The course is designed to illustrate by experiment the principles of Ph. 319. Two laboratory periods. Spring. 2 sem. hrs.

Ph. 331-333 Modern Physics The origin and development of some of the more important concepts of Physics with special emphasis on the theories and developments of the last half century. Prerequisites: same as for Ph. 301. Two lecture periods and one lab period per week. 6 sem. hrs.

Ph. 335-337 Electronics and Radio Physics The electron and its properties; thermionic and photo-electric emission; radio transmission and receiving circuits and apparatus. Prerequisite: Ph. 301-303, Mt. 310. Three lecture periods. 6 sem. hrs.

Ph. 336-338 Practical Electronics and Radio Physics A laboratory course designed to accompany and illustrate Ph. 335-336. Two laboratory periods each week. 4 sem. hrs.

B. Mathematics

Mt. 10 Review of Pre-College Mathematics Required of all students who do not meet entrance mathematics standards. A directed workshop based on text by Lapp, Knight, and Rietz. This text is strongly recommended for all entering freshmen. Fall Semester only. No Credit.

Mt. 103 College Algebra Logarithms; slide rule; theory of equations; inequalities; combinations and permutations; mathematical induction; binomial theorem; determinants; progressions; infinite series; partial fractions. 3 sem. hrs.

Mt. 105 Plane Trigonometry Trigonometric functions of acute angles; use of the table of natural functions; the right triangle; trigonometric functions of any angle; functions of the sum or the difference of two angles; the oblique triangle; graphs of functions; trigonometric identities and equations; applications of trigonometry to algebra. 3 sem. hrs.

Mt. 107-8 Freshman Mathematics This course is to be a combination of Algebra, Trigonometry and Analytic Geometry based on Brinks: "First year college Mathematics." Five hours per week. 10 sem. hrs.

Mt. 301 Differential Calculus Functions; limits; derivatives; successive derivatives; maxima and minima; roots; differentials; curvature; theorem of mean value; indeterminate integrals. Prerequisite: Mt. 301. Spring. 3 sem. hrs.

Mt. 302 Integral Calculus Integration by all methods; evaluation of the constant of integration; the definite integral; the fundamental theorem of integral calculus; series; multivariate forms. Prerequisite: Mt. 107-8. Fall. 3 sem. hrs.

Mt. 310 Differential Equations Equations of the first order and first degree; equations of the first order but of higher degree; linear equations of a higher order with constant coefficients; total differential equations; simultaneous equations; homogeneous linear equations; equations of higher order and higher degree; integration in series. Prerequisite: Mt. 302. Fall. 3 sem. hrs.

Mt. 312 Theory of Equations Descartes' rules; Sturm's theorem; Lagrange's and Newton's methods of solution of equations; solution of equations by radicals; Cardan's formula; Vandermonde's principle; graphical solution of equations; introduction to the theory of groups. Prerequisite: Mt. 103, 105, 301. Fall. 3 sem. hrs.

Mt. 316 Vector Analysis Addition, multiplication, differentiation, and integration of vector quantities. Prerequisite: Mt. 302. 3 sem. hrs.

Mt. 398-399 Advanced Calculus A course in advanced calculus based on Widder's Advanced Calculus 6 sem hrs.

C. Drawing

Dr. 101-102 Elementary Mechanical Drawing Lettering; applied geometry; orthographic projections; auxiliary views; revolutions; isometric and oblique projections; developments. 6 sem. hrs.

Dr. 201 Descriptive Geometry Orthographic drawing; auxiliary views; point-line-plane problems; revolution; concurrent non-coplanar forces; curved lines and surfaces; practice and drafting-room problems. Fall. 3 sem. hrs.

Dr. 202 Machine Drawing Piping, detailing, and general working drawings. Spring. 3 sem. hrs.

DEPARTMENT OF SOCIOLOGY

Rev. Joseph H. Fichter, S.J., Ph.D., Chairman

Sl. 101 Introductory Sociology Basic concepts and empirical data concerning human relations in society. Fall. 3 sem. hrs.

Sl. 102 Social Institutions Study of social processes, community life and basic institutions. Spring. 3 sem. hrs.

Sl. 205 Social Disorders I Problems centered around the American industrial economy and flowing from it. Fall. 3 sem. hrs.

Sl. 206 Social Disorders II A general course in social problems with emphasis on delinquency, health, child welfare, the family, race relations and population. Spring. 3 sem. hrs.

Sl. 303 The Family A sociological analysis of trends and processes in the Western family system. Fall. 3 sem. hrs.

Sl. 306 The Functional Society A study of social reconstruction based on the analyses of Durkheim and the social encyclicals. 3 sem. hrs.

Sl. 312 Social Psychology The development of personality through social relations. The motivation and control of social behavior. Fall. 3 sem. hrs.

Sl. 327 Parochial Sociology A course in the Sociology of Religion specifically treating the processes, institutions and problems of the Southern urban parish. Spring. 3 sem. hrs.

Sl. 331 Cultural Anthropology The origins and distribution of cultures. Traditional customs and institutions in persisting social groups. Fall. 3 sem. hrs.

Sl. 332 The Simple Community A comparative analysis of several contemporary minor culture areas. Spring. 3 sem. hrs.

DEPARTMENT OF THEOLOGY

Rev. Samuel H. Ray, S.J., A.M., S.T.D.

Th. 103 Moral Guidance A study of the principal laws which God has given to man to guide him in his moral conduct. Commandments 1 to 4. Fall. 2 sem. hrs.

Th. 104 Moral Guidance Continuation of the Commandments 5 to 10. Moral duties of judges, doctors, etc. Spring. 2 sem. hrs.

Th. 205 Apologetics Revelation; the Historicity of the Gospels; the Divinity of Christ. Fall. 2 sem. hrs.

Th. 206 Apologetics The Church of Christ; the primacy of Peter; the act of Faith. Spring. 2 sem. hrs.

Th. 301 Sacred Scripture The Bible in general; inspiration; Canon of the Bible; rules of interpretation; exegesis on selected parts of the New Testament: The Life of Christ. Fall. 2 sem. hrs.

Th. 302 Dogma The chief articles of the Christian revelation as embodied in the Apostles Creed: God, The author and restorer of our Salvation; God, Unity of Nature, Trinity of Persons; the Fall of man; Christ the Redeemer; The Four Last Things. Spring. 2 sem. hrs.

Th. 303 The Sacraments A detailed study of the Sacraments; the nature, Author and minister of the Sacraments, Baptism, Confirmation, Holy Eucharist, Penance, Extreme Unction, Matrimony and Holy Order. Fall. 2 sem. hrs.

Th. 305 Christian Marriage Notions on morality; the Church's part in determining morality; the power of the State and Church over marriage; prenuptial requirements; premarital chastity; general preparation for marriage; rights and duties of married people; birth control; divorce. Spring. 2 sem. hrs.
